Mr. Harry,

I am reviewing the abovementioned filing.

The rate certification requires the signature of a qualified actuary. The actuarial portion of the certification is signed by Ms. Tina Costantino. I have tried to verify her professional qualifications (ACAS, FCAS, MAAA, etc) but have not been able to find her listed on any actuarial membership websites.

Please provide verification of her professional qualifications. If she is not qualified, please provide a revised certification signed by a qualified actuary.

Your response is requested by August 28, 2009.

Thank you,

**NATIONAL UNION FIRE INSURANCE COMPANY OF PITTSBURGH, Pa.**  
**NEUROLOGISTS PROFESSIONAL LIABILITY PROGRAM**

**Explanatory Memorandum**  
**ILLINOIS**

National Union Fire Insurance Company of Pittsburgh, Pa. is proposing to offer Medical Malpractice coverage to Neurologists. The proposed mature base rate, class relativities and territorial relativities are the same as those in use by a competitor in the state. The proposed increased limits factors, claims made step factors, and extended reporting period factors are the same as those in use by an affiliate program offering similar coverage to Psychiatrists.

**EXHIBIT 1: DERIVATION OF BASE RATE**

The proposed mature claims made rates for this coverage are based on those in use by Illinois State Medical Insurance Exchange (ISMIE). The pure premium was extracted from the competitor's rate. An offset was applied to the indicated pure premium to account for differences in the competitor's increased limit and step factors and those being proposed for National Union.

National Union's proposed expenses were then loaded into the indicated pure premium. The proposed mature claims made rate was judgmentally selected to be the same as the competitor.

**EXHIBIT 1B: CLAIMS MADE STEP FACTOR/INCREASED LIMIT FACTOR ADJUSTMENT**

The indicated pure premium has been adjusted due to account for differences in the competitor's increased limit and step factors and those proposed for National Union. The weighted average increased limit factor differentials are applied to the indicated pure premium (Exhibit 1 (5)).

**EXHIBIT 2: EXPENSE PROVISIONS AND DETERMINATION OF EXPECTED LOSS RATIO**

Expense provisions are based on the Medical Malpractice expenses found for American Home/ National Union Group in the Insurance Expense Exhibit. The commission expense is program specific. The expected loss & lae ratio is the complement of the total expenses and profit load. The profit & contingency factor has been calculated based on a target rate of return on equity of 12.5%.

**EXHIBIT 3: INVESTMENT INCOME EXHIBITS**

The investment income exhibits are based on American Home/ National Union Group's Annual Statement experience and incorporate the medical malpractice premium and program expense provisions to determine an indicated investment income offset. The calendar year method was used to determine investment income.

PREMIUM RESERVES AND ON LOSS RESERVES  
(Explanatory Notes)

MEDICAL MALPRACTICE

Line A.1

MEDICAL MALPRACTICE direct earned premium for calendar year 2007 as provided by American Home/National Union Group.

Line A.2

The mean direct unearned premium reserve is determined by multiplying the Medical Malpractice direct earned premium in line (A.1) by the countrywide ratio of the mean direct unearned premium reserve to the direct earned premium for 2007. See below for calculation of this ratio. This ratio is based on data for Medical Malpractice from page 15 of the Annual Statement for American Home/National Union Group

	(In 000's)
1. Direct Earned Premium for Calendar Year 2007	\$ 118,412
2. Direct Unearned Premium Reserve as of 12/31/06	63,767
3. Direct Unearned Premium Reserve as of 12/31/07	51,886
4. Mean Direct Unearned Premium Reserve 1/2 [(2) + (3)]	57,827
5. Ratio [(4) / (1)]	0.488

Line A.3

Deduction for prepaid expenses:

Production costs and a large part of the other company expenses in connection with the writing and handling of the filed insurance coverage exclusive of claim adjustment expenses, are incurred when the policy is written and before the premium is paid. Therefore, the deduction for these expenses is determined by use of the provisions for expenses used in our ratemaking procedure as shown.

Line A.4

Deduction for Federal Taxes Payable:

Taxable percentage of unearned premium reserves (Tax Reform Act of 1986):	20.0%
Corporate Tax Rate:	35.0%
Total Percentage of Unearned Premium Reserve:	7.0%

Line B.2

Delayed remission of premium:

This deduction is necessary because of delay in collection and remission of premiums beyond the effective dates of the policies. Funds for the unearned premium reserve required during the initial days of all policies must be taken from the company's surplus. (continued)

ESTIMATED INVESTMENT EARNINGS ON UNEARNED  
PREMIUM RESERVES AND ON LOSS RESERVES

## MEDICAL MALPRACTICE

Line B.2 (continued)

Agents' balances or uncollected premiums for premiums due less than 90 days are calculated as follows:

	(In 000's)
1. Net Earned Premium for Calendar Year 2007	\$ 21,163,280
2. Net Agents' Balances as of 12/31/06	2,845,895
3. Net Agents' Balances as of 12/31/07	1,895,919
4. Mean Agents' Balances $1/2 \times [(2) + (3)]$	2,370,907
5. Ratio $[(4) / (1)]$	0.112

The above percentage must be multiplied by a factor of 1.389 to include the effect of agents' balances or uncollected premiums overdue for more than 90 days. The factor 1.389 is based on 2007 company data.

Final adjusted Agents' Balance:

0.1556
--------

Line C.2

The expected loss and loss adjustment ratio reflects the expense provisions used in the filing.

Line C.3

The expected mean loss reserve is determined by multiplying the expected incurred losses in line (C.2) by the average countrywide ratio of the mean loss and loss adjustment reserves to the incurred losses and loss adjustment expenses in 2006 and 2007 for Medical Malpractice Insurance. This ratio is based on Annual Statement Data.

	(In 000's)
1. Incurred Losses and L.A.E. for Calendar Year 2006	204,914
2. Incurred Losses and L.A.E. for Calendar Year 2007	69,179

Hi Gayle,

In regards to items (1) and (2), the attachment that was provided on August 5, 2009 (email below) does include the correct extended reporting claims factors and territory factors.

As for item (3), as requested, the attached file contains the rates for each territory.

Please let me know if there are any questions.

Mr. Cheung,

Thank you for your e-mail and attachment. As I indicated in my conversation with you and Tina Costantino, I will let our Actuarial Unit review this issue. However, for the manual page, I need a copy that (1) indicates corrected reporting claims endorsement factors, (2) includes the territory factors, and (3) provides the rates you are charging (\$42,188, \$39.936, etc.). Please forward this page at your earliest convenience.

M. Harry,

With your response, you provided a Side by Side of Original Proposal to Revised Proposal of Territory Factors. The revised rates listed on this page are the amounts I came up when multiplying the territory factors with the base rate. However, these numbers still don't match the figures submitted on the State Rate page provided with this filing. Please explain.

Ms. Neuman,

In response to your comment email dated June 23, 2009, we offer the following:

1. **Pre-paid Tail Policy:** The Claims-made with Pre-paid Tail policy is a claims-made policy with the premium for the Extended Claim Reporting Period already built into the base rate. The premium for a Pre-paid Tail policy is higher than the premium for a Claims-Made policy because the insured is essentially paying for this lifetime tail coverage each year. Also, Pre-paid tail premium does not change unless there's a base rate change filed. The cost to cover all future claims for services rendered during the policy period is paid in full each year, therefore the premiums are level. Therefore, there is no need for pre-paid tail factors.

Additionally, please note that if an applicant's previous coverage was under a pure claims-made policy, the applicant would not have the option to transfer his/her retroactive date from the previous carrier to our Pre-paid tail policy. This option, which is only available for the pure claims-made policy, is not available with our Pre-paid Tail policy because the Pre-paid tail base rate does not contemplate retroactive coverage for acts that occurred prior to the start of the coverage with The Neurologists Program. The applicant would have to either purchase the extended claim reporting period endorsement from the previous carrier or purchase a Prior Acts Coverage endorsement through our program. The Prior Acts Coverage factors are outlined in the rules manual. However, please note that the typical purchaser of our Pre-paid Tail policy is either a first time purchaser of professional liability insurance or someone with a previous occurrence type policy.

2. Attached please find a side by side Exhibit for the Territory Factors, also attached is the competitor's exhibit which contains the territory factors we are adopting.

Please let us know if we can be of any further assistance.

M. Harry,

On the pages previously provided, the company has filed an Extended Reporting Claims Endorsement factor. Is there a pre-paid tail factor? I do not understand the explanation provided regarding rounding – for example, how does \$23,344 round up to \$24,188 (territory 8)? Please provide further explanation.

M. Harry,

I have reviewed your May 21, 2009 response.

Whenever you make changes to the manual, you are to identify such changes. Changes that are not identified will not be deemed as filed. I am referencing the changes to the part-time practice made in your last submission.

Your response included the territory factors. However, when I took the base rate and multiplied it by the territory factor, I did not get the same rates as previously indicated in the manual that was submitted on November 17, 2008. Please explain.

Your response is requested to be received by no later than June 19, 2009.

**Schedule rating characteristics**

The following schedule rating criteria can be used to establish the adjusted annual premium per participant:

Refer to the following, which discusses the underwriting intention for considering risk characteristics not otherwise contemplated in the base rate.

The rating schedule is intended to create an overall risk profile of the insured. Multiple characteristics should be weighted and evaluated based on measurable statistics, (i.e. practice time, number of patients, length of training or experience or lack thereof, etc). This program is mandatory and to be administered consistently with each insured or prospective insured.

*Adjustment to base rate of +/-25% requires management approval except where indicated below. Total adjustment for all items combined cannot exceed +/- 25%.*

**A. PRACTICE SETTING:**

**Facility has been subject to license or accreditation disciplinary action or federal investigation or prosecution, mass tort litigation or investigative reporting.** If an insured is affiliated with a facility that has recently been subject to any of these issues it is probable that the insured may have an increased

liability. The effect of patient knowledge of these actions and media attention could place our insured in a position to be "guilty by association".

The underwriter should utilize all reference information relative to this facility and determine the degree of involvement of our insured directly related to the facility's adverse risk characteristics. **25% Debit**

**B. NATURE AND SCOPE OF PRACTICE**

**Treatment of pain management:** Patients seeking professional services for the management of pain are almost always associated with other medical treatments or illnesses. For this reason, treatment of pain management can increase the liability where our insured would be involved in a claim along with other treating neurologists. The underwriter should discuss the volume of patients and practice time devoted to this activity. In addition, the treatment modalities should be discussed with PRMS risk management to determine standard of care. A neurologist utilizing anesthesia for pain management is not contemplated in the base rate and a surcharge of 25% should be applied once underwriting application has been approved. **25% Debit**

**Above average daily patient volume:** An average daily patient volume of 25 is contemplated in the base rates. Any practice where the patient volume is greater should be considered as an increased risk and priced accordingly. **20% Debit**

**Adverse risk not contemplated in the base rate:** This category should be used when the underwriter determines that the participant's exposure generates a risk not otherwise discussed in the above criteria and was not contemplated in the usual and customary definition of neurological professional services but meets underwriting approval for coverage. Use of this category requires management approval in all cases. **25% Debit**

<b>Rule 7.</b>	<b>Group Accounts</b>
----------------	-----------------------

**Eligibility**

The medical groups that will be considered for Coverage B of the policy will be professional corporations, partnerships, or associations owned and operated by neurologists.

**Rates**

Each neurologist insured will be rated in accordance with the individual program rules and rates.

Individual coverage for other healthcare professionals covered in a group policy will be rated as a factor of the mature claims made or occurrence rate of a neurologist (class code 80261) rate for that rating area.

Vicarious liability coverage for the medical group for employed or contracted healthcare providers not insured under the policy will be priced at 10% of the otherwise applicable premium rate (including discounts).

Medical group premium will be priced based on the following:

<u>Number of</u> <u>Insured employees/contractors.</u>	<u>Percentage of</u> <u>Insured Neurologist Base Rate</u>
2-5	10%
6-10	15%
11-20	20%
over 20	25%

The sum of the individuals, medical group and vicarious liability premium will determine the total premium of the medical group.

Insureds can share the limit of liability of the medical group.

The base rate for each insured sharing the limit with the group entity will be reduced by 10% when the total number of insured neurologists in the group exceeds 5 on an annual basis.

The base rate for each insured sharing the limit with the group entity will be reduced by 5% when the total number of insured neurologists in the group is 5 or less on an annual basis.

A schedule rating credit/debit can then be applied to the total premium of the medical group in accordance with the Schedule Rating Group Rules, (see attached).

**Limits of Liability**

Refer to policy Limits of Liability Section, Coverage A and Coverage B for application of limits for individual insureds, medical corporations, partnerships, and associations. Refer to the rate schedule for the applicable limits for each state.

**Group Vicarious Liability Surcharge Endorsement**

If a scheduled insured under the group policy terminates coverage and does not elect to purchase the extended reporting endorsement, the group premium will be surcharged 10% of the quoted ERP premium. The surcharge is applicable as a result of the vicarious liability exposure to the group for the professional services rendered by the insured while working on behalf of the group. The surcharge will be waived if the cancelled insured provides proof of prior acts coverage from the new carrier for the period insured under the group policy.

**Outside Medical Group Practice Activity**

Coverage will be considered for an insured that has a medical practice outside the scope of his/her affiliation with the medical group. The outside practice is subject to underwriting and if accepted will be rated in accordance with the medical specialty rate and total practice hours applicable to all practice activities for which coverage has been provided.

<b>Rule 8.</b>	<b>Group Accounts – Schedule Rating</b>
----------------	---

*Adjustment to base rate on group accounts not to exceed a credit of 5% or a debit of 10%.*

The following modifications may be applied to recognize special characteristics that are not fully recognized in the basic rate(s) or premium. The maximum credit shall not exceed -5% and the maximum debit shall not exceed +10%. The schedule rating program is mandatory and to be administered consistently for each insured or prospective insured.

**Management**

Management has demonstrated adequate control and monitoring of the risks and exposures of the organization. The financial condition of the Medical Group is favorable. An example of a Medical Group which would receive a credit would employ a dedicated risk manager and have favorable financial ratios. (+/-5%)

**Employees**

The applicant has established a continuing professional education program for its employees and encourages certification in their respective specialties. There must be a statement in the employee handbook advocating continuing education. The Medical Group agrees to pay all or some of the tuition fees and/or related educational expenses. Further, the composition of the Medical Group will be 50% or greater of the employee population having board certification or similar advanced degrees for a maximum credit to be granted. If the percentage is lower, but still substantial, and the other criteria described above are met, a lesser credit may be granted. If none of the above, a debit will be made. (+/-5%)

**NATIONAL UNION FIRE INSURANCE COMPANY OF PITTSBURGH, PA**  
**THE NEUROLOGISTS' PROGRAM**

**Risk Management**

The applicant has an established and working risk management program to minimize the frequency and severity of claims. A Medical Group which has an incident reporting system, occurrence screening, and other mechanisms to address potential and actual claims would receive a maximum credit. If none of these mechanisms are in place, a debit will be made. (+/-5%)

**Medical Records/Informed Consent**

The applicant has a system in effect for concurrent and retrospective review of medical records and informed consent documents. If the Medical Group has a medical records system only or an informed consent system only, no debit or credit is available. If both systems are in effect, a credit is available. If neither system is in effect, a debit will be made. (+/-5%)

**Performance of experimental procedures**

If the medical group practice includes procedures that are considered experimental, but that are performed within the prescribed guidelines, controlled studies, or : "protocol" established by the manufacturer or similar entity, there will be no debit or credit, however if the experimental procedures are not subject to the protocol, a debit of up to 10% will be applied. Since the underlying program's rates reflect the assumption that insureds will not be performing experimental procedures, no credit will be given under any circumstances and under this category i.e. there will be no credit if experimental procedures are not utilized. <b>Rule 9.</b>	<b>Locum Tenens</b>
----------------	---------------------

A Locum Tenens ("hold the place of") works in place of a Named Insured or Additional Named Insured, never at the same time. The Locum Tenens doctor must be underwritten in the same specialty classification as the Named Insured or Additional Named Insured. The program will allow Locum Tenens coverage for a maximum total of 45 days each policy year.

There is no charge for this coverage.

<b>Rule 10.</b>	<b>Suspension of Insurance</b>
-----------------	--------------------------------

An insured may request suspension of insurance, due to disability or to accommodate a sabbatical leave of training. The insured will not be covered for claims or suits which arise based on an occurrence within the period of suspension. The insured is entitled to report claims during the period of suspension which arise from occurrences when the policy was in force and not on suspense.

Suspension may be secured for a minimum period of 90 consecutive days and for a maximum of one year. This option is allowed only once every four years except for reason of disability.

Billing for the current quarter(s) is suppressed, and a refund for the quarter(s) or remainder of quarter(s) affected is made to the insured.

A minimum annual premium of \$4000.00 will be applied for any one policy with limits of \$2,000,000/\$6,000,000.

<b>Rule 12.</b>	<b>Loss Free Credit</b>
-----------------	-------------------------

**To qualify for the Loss Free Credit, the named insured must have been practicing at least five (5) years after completion of a residency or fellowship training program and cannot have any open claim(s) with an indemnity reserve more than \$25,000.**

A ten percent credit is available if the Named Insured Neurologist has not had any claim(s) with more than \$10,000 of indemnity payments and loss adjustment expenses more than \$15,000 paid during the previous five (5) years.

A five percent credit is available if the Named Insured Neurologist has not had any claim(s) with more than \$10,000 of indemnity payments and loss adjustment expenses of \$15,001 to \$25,000 paid during the previous five (5) years.

<b>Rule 12.</b>	<b>Loss Free Credit</b>
-----------------	-------------------------

**To qualify for the Loss Free Credit, the named insured must have been practicing at least five (5) years after completion of a residency or fellowship training program and cannot have any open claim(s) with an indemnity reserve more than \$25,000.**

A ten percent credit is available if the Named Insured Neurologist has not had any claim(s) with more than \$10,000 of indemnity payments and loss adjustment expenses more than \$15,000 paid during the previous five (5) years.

A five percent credit is available if the Named Insured Neurologist has not had any claim(s) with more than \$10,000 of indemnity payments and loss adjustment expenses of \$15,001 to \$25,000 paid during the previous five (5) years.

**Rule 13. Tail Coverage (Extended Reporting Period)**

Tail pricing is calculated by applying the factor shown below that corresponds with the Number of Years written under a Claims Made contract to the expiring annual premium written under the claims made contract. ~~mature Claims Made premium.~~

First Year	<del>0.65</del> <u>3.306</u>
Second Year	<del>1.15</del> <u>3.153</u>
Third Year	<del>1.50</del> <u>2.401</u>
Fourth Year	<del>1.70</del> <u>2.178</u>
Fifth Year and Thereafter	<del>1.85</del> <u>2.196</u>
<u>Sixth Year</u>	<u>2.183</u>
<u>Seventh Year and Thereafter</u>	<u>2.180</u>

All discounts, surcharges, credits, & debits applied to the Primary Coverage must be applied to the calculation of the Tail premium as well. The tail coverage (extended reporting period) endorsement that is issued for the tail, whether it was purchased or provided at no additional cost, provides unlimited tail coverage.

**FREE TAIL COVERAGE**

Tail coverage is free in the event of DEATH or PERMANENT DISABILITY, or when a member reaches age 55 or older and has been insured under a Claims-Made contract with the insurer for at least 5 consecutive years immediately prior to permanent retirement.

**Rule 14. Quarterly Premium Installment Plan**

**Quarterly Premium Installment Plan:** The charge for premium installments shall be the lesser of one percent (1%) of the total premium or \$25.00 per installment. There will be no interest charges on installment payments. Any additional premium resulting from changes to the policy will be spread equally over the remaining installments, if any. If there are no remaining installments, additional premium resulting from changes to the policy will be billed immediately as a separate transaction.

<u>First Quarter</u>	<u>=</u>	<u>40%</u>	<u>Due at policy inception</u>
<u>Second Quarter</u>	<u>=</u>	<u>20%</u>	<u>Due 3 months from policy inception</u>

Dear Ms. Neuman:

National Union Fire Insurance Company of Pittsburgh, Pa., acknowledges receipt of your comment letter dated May 5, 2009. In response to your request we offer the following:

1. Response to comment 1 - Attached please find a signed Illinois certification of actuarial data and principles.
2. Response to comment 2 - The statistical agency used is Insurance Services Office (ISO).
3. Response to comment 3 - The percentages shown in this section are debits and the manual rule has been revised for clarification.
4. Response to comment 4 - No. These are flat debits.
5. Response to comment 5 - The Rule states + or - 5% depending on if both or neither systems are in effect. If both systems are in effect, a 5% credit is applied. If neither system is in effect, a 5% debit will be applied.
6. Response to comment 6 - This current rule states that the tail premium will be priced as a factor of the expiring annual premium which includes all applicable discounts, surcharges, credits and debits. The factors have been revised to those of the Illinois State Medical Insurance Exchange (ISMIE) since their policies mature at the 7<sup>th</sup> year instead of the 5<sup>th</sup> year.

M. Harry,

We are in receipt of the above referenced filing submitted with your letter dated November 11, 2008. Please address the following questions/concerns:

1. 215 ILCS 5/155.18 states it shall be certified in this filing by an officer of the company and a qualified actuary that the company's rates are based on sound actuarial principles and are not inconsistent with the company's

5/22/2009

experience. This information is required in every rate/rule filing for medical malpractice.

2. Please indicate if your company has a plan for the gathering of statistics or the reporting of statistics to statistical agencies? If yes, what stat agency is being used? Also please confirm that there is no change in the rate being submitted in this filing.

3. On page 4 – Rule 6, are these debits?

4. On page 5 – are these debits a range (0 to 25 vs. just 25)?

5. On page 8 under Medical Records/Informed Consent, it indicates if both systems are in effect, a credit is available. What amount?

6. On page 10 under Rule 13, the rule should state the extended reporting period (tail coverage) premium must be priced as a factor of one of the following: (1) the last twelve months premium; (2) the premium in effect at policy issuance; or (3) the expiring annual premium. Additionally, you must list the factor(s) to be used to figure the premium, which of the three premiums the factor will be applied to, and any credits, discounts, etc. that will be added or removed when determining the final premium.

7. Please provide the territory factors and the base rate for neurology.

We request receipt of your response by May 15, 2009.

**Schedule rating characteristics**

The following schedule rating criteria can be used to establish the adjusted annual premium per participant:

Refer to the following, which discusses the underwriting intention for considering risk characteristics not otherwise contemplated in the base rate.

The rating schedule is intended to create an overall risk profile of the insured. Multiple characteristics should be weighted and evaluated based on measurable statistics, (i.e. practice time, number of patients, length of training or experience or lack thereof, etc). This program is mandatory and to be administered consistently with each insured or prospective insured.

***Adjustment to base rate of +/-25% requires management approval except where indicated below.***

**NATIONAL UNION FIRE INSURANCE COMPANY OF PITTSBURGH, PA  
THE NEUROLOGISTS' PROGRAM  
PROFESSIONAL LIABILITY INSURANCE PROGRAM  
MANUAL RULES**

**A. PRACTICE SETTING:**

**Facility has been subject to license or accreditation disciplinary action or federal investigation or prosecution, mass tort litigation or investigative reporting.** If an insured is affiliated with a facility that has recently been subject to any of these issues it is probable that the insured may have an increased liability. The effect of patient knowledge of these actions and media attention could place our insured in a position to be "guilty by association".

The underwriter should utilize all reference information relative to this facility and determine the degree of involvement of our insured directly related to the facility's adverse risk characteristics. **25% Debit**

**B. NATURE AND SCOPE OF PRACTICE**

**Treatment of pain management:** Patients seeking professional services for the management of pain are almost always associated with other medical treatments or illnesses. For this reason, treatment of pain management can increase the liability where our insured would be involved in a claim along with other treating neurologists. The underwriter should discuss the volume of patients and practice time devoted to this activity. In addition, the treatment modalities should be discussed with PRMS risk management to determine standard of care. A neurologist utilizing anesthesia for pain management is not contemplated in the base rate and a surcharge of 25% should be applied once underwriting application has been approved. **25% Debit**

**Above average daily patient volume:** An average daily patient volume of 25 is contemplated in the base rates. Any practice where the patient volume is greater should be considered as an increased risk and priced accordingly. **20% Debit**

**Minor non-surgical procedures not contemplated in the base rate:** This category should be used when the underwriter determines that the participant's ISO class code is 80288 – Neurology with minor procedures. This class code generates a risk not otherwise discussed in the above criteria but meets underwriting approval for coverage. Use of this category requires management approval in all cases. **40% debit**

**Adverse risk not contemplated in the base rate:** This category should be used when the underwriter determines that the participant's exposure generates a risk not otherwise discussed in the above criteria and was not contemplated in the usual and customary definition of neurological professional services but meets underwriting approval for coverage. Use of this category requires management approval in all cases. **25% Debit**

<b>Rule 7.    Group Accounts</b>
----------------------------------

**Eligibility**

The medical groups that will be considered for Coverage B of the policy will be professional corporations, partnerships, or associations owned and operated by neurologists.

**Rates**

Each neurologist insured will be rated in accordance with the individual program rules and rates.

Individual coverage for other healthcare professionals covered in a group policy will be rated as a factor of the mature claims made or occurrence rate of a neurologist (class code 80261) rate for that rating area.

Vicarious liability coverage for the medical group for employed or contracted healthcare providers not insured under the policy will be priced at 10% of the otherwise applicable premium rate (including discounts).

Medical group premium will be priced based on the following:

<u>Number of</u> <u>Insured employees/contractors.</u>	<u>Percentage of</u> <u>Insured Neurologist Base Rate</u>
2-5	10%
6-10	15%
11-20	20%
over 20	25%

The sum of the individuals, medical group and vicarious liability premium will determine the total premium of the medical group.

**NATIONAL UNION FIRE INSURANCE COMPANY OF PITTSBURGH, PA  
THE NEUROLOGISTS' PROGRAM  
PROFESSIONAL LIABILITY INSURANCE PROGRAM  
MANUAL RULES**

Insureds can share the limit of liability of the medical group.

The base rate for each insured sharing the limit with the group entity will be reduced by 10% when the total number of insured neurologists in the group exceeds 5 on an annual basis.

The base rate for each insured sharing the limit with the group entity will be reduced by 5% when the total number of insured neurologists in the group is 5 or less on an annual basis.

A schedule rating credit/debit can then be applied to the total premium of the medical group in accordance with the Schedule Rating Group Rules, (see attached).

**Limits of Liability**

Refer to policy Limits of Liability Section, Coverage A and Coverage B for application of limits for individual insureds, medical corporations, partnerships, and associations. Refer to the rate schedule for the applicable limits for each state.

**Claims-Made**

The retroactive date can be advanced only at the request or with the written acknowledgment of the insured.

**Group Vicarious Liability Surcharge Endorsement**

If a scheduled insured under the group policy terminates coverage and does not elect to purchase the extended reporting endorsement, the group premium will be surcharged 10% of the quoted ERP premium. The surcharge is applicable as a result of the vicarious liability exposure to the group for the professional services rendered by the insured while working on behalf of the group. The surcharge will be waived if the cancelled insured provides proof of prior acts coverage from the new carrier for the period insured under the group policy.

**Outside Medical Group Practice Activity**

Coverage will be considered for an insured that has a medical practice outside the scope of his/her affiliation with the medical group. The outside practice is subject to underwriting and if accepted will be rated in accordance with the medical specialty rate and total practice hours applicable to all practice activities for which coverage has been provided.

<b>Rule 8.</b>	<b>Group Accounts – Schedule Rating</b>
----------------	---

*Adjustment to base rate on group accounts not to exceed a credit of 5% or a debit of 10%.*

The following modifications may be applied to recognize special characteristics that are not fully recognized in the basic rate(s) or premium. The maximum credit shall not exceed 5% and the maximum debit shall not exceed +10%. The schedule rating program is mandatory and to be administered consistently for each insured or prospective insured.

**THE NEUROLOGISTS' PROGRAM**  
**PROFESSIONAL LIABILITY INSURANCE PROGRAM**  
**MANUAL RULES**

**Management**

Management has demonstrated adequate control and monitoring of the risks and exposures of the organization. The financial condition of the Medical Group is favorable. An example of a Medical Group which would receive a credit would employ a dedicated risk manager and have favorable financial ratios. (+/-5%)

**Employees**

The applicant has established a continuing professional education program for its employees and encourages certification in their respective specialties. There must be a statement in the employee handbook advocating continuing education. The Medical Group agrees to pay all or some of the tuition fees and/or related educational expenses. Further, the composition of the Medical Group will be 50% or greater of the employee population having board certification or similar advanced degrees for a maximum credit to be granted. If the percentage is lower, but still substantial, and the other criteria described above are met, a lesser credit may be granted. If none of the above, a debit will be made. (+/-5%)

**Risk Management**

The applicant has an established and working risk management program to minimize the frequency and severity of claims. A Medical Group which has an incident reporting system, occurrence screening, and other mechanisms to address potential and actual claims would receive a maximum credit. If none of these mechanisms are in place, a debit will be made. (+/-5%)

**Medical Records/Informed Consent**

The applicant has a system in effect for concurrent and retrospective review of medical records and informed consent documents. If the Medical Group has a medical records system only or an informed consent system only, no debit or credit is available. If both systems are in effect, a credit is available. If neither system is in effect, a debit will be made. (+/-5%)

**Performance of experimental procedures**

If the medical group practice includes procedures that are considered experimental, but that are performed within the prescribed guidelines, controlled studies, or : "protocol" established by the manufacturer or similar entity, there will be no debit or credit, however if the experimental procedures are not subject to the protocol, a debit of up to 10% will be applied. Since the underlying program's rates reflect the assumption that insureds will not be performing experimental procedures, no credit will be given under any circumstances and under this category i.e. there will be no credit if experimental procedures are not utilized. (+10%)

<b>Rule 9.</b>	<b>Locum Tenens</b>

classification as the Named Insured or Additional Named Insured. The program will allow Locum Tenens coverage for a maximum total of 45 days each policy year.

There is no charge for this coverage.

<b>Rule 10.</b>	<b>Suspension of Insurance</b>
-----------------	--------------------------------

An insured may request suspension of insurance, due to disability or to accommodate a sabbatical leave of training. The insured will not be covered for claims or suits which arise based on an occurrence within the period of suspension. The insured is entitled to report claims during the period of suspension which arise from occurrences when the policy was in force and not on suspense.

Suspension may be secured for a minimum period of 90 consecutive days and for a maximum of one year. This option is allowed only once every four years except for reason of disability.

Billing for the current quarter(s) is suppressed, and a refund for the quarter(s) or remainder of quarter(s) affected is made to the insured.

Charge 25% of the claims-made rate.

<b>Rule 11.</b>	<b>Policy Minimum Premium</b>
-----------------	-------------------------------

A minimum annual premium of \$2000.00 will be applied for any one policy with limits of \$1,000,000/\$3,000,000 or lower.

A minimum annual premium of \$4000.00 will be applied for any one policy with limits of \$2,000,000/\$6,000,000.

**Schedule rating characteristics**

The following schedule rating criteria can be used to establish the adjusted annual premium per participant:

Refer to the following, which discusses the underwriting intention for considering risk characteristics not otherwise contemplated in the base rate.

The rating schedule is intended to create an overall risk profile of the insured. Multiple characteristics should be weighted and evaluated based on measurable statistics, (i.e. practice time, number of patients, length of training or experience or lack thereof, etc). This program is mandatory and to be administered consistently with each insured or prospective insured.

*Adjustment to base rate of +/-25% requires management approval except where indicated below.*

**A. PRACTICE SETTING:**

**Facility has been subject to license or accreditation disciplinary action or federal investigation or prosecution, mass tort litigation or investigative reporting.** If an insured is affiliated with a facility that has recently been subject to any of these issues it is probable that the insured may have an increased

liability. The effect of patient knowledge of these actions and media attention could place our insured in a position to be "guilty by association".

The underwriter should utilize all reference information relative to this facility and determine the degree of involvement of our insured directly related to the facility's adverse risk characteristics. **25% Debit**

**B. NATURE AND SCOPE OF PRACTICE**

**Treatment of pain management:** Patients seeking professional services for the management of pain are almost always associated with other medical treatments or illnesses. For this reason, treatment of pain management can increase the liability where our insured would be involved in a claim along with other treating neurologists. The underwriter should discuss the volume of patients and practice time devoted to this activity. In addition, the treatment modalities should be discussed with PRMS risk management to determine standard of care. A neurologist utilizing anesthesia for pain management is not contemplated in the base rate and a surcharge of 25% should be applied once underwriting application has been approved. **25% Debit**

**Above average daily patient volume:** An average daily patient volume of 25 is contemplated in the base rates. Any practice where the patient volume is greater should be considered as an increased risk and priced accordingly. **20% Debit**

**Minor non-surgical procedures not contemplated in the base rate:** This category should be used when the underwriter determines that the participant's ISO class code is 80288 - Neurology with minor procedures. This class code generates a risk not otherwise discussed in the above criteria but meets underwriting approval for coverage. Use of this category requires management approval in all cases. **40% debit**

**Adverse risk not contemplated in the base rate:** This category should be used when the underwriter determines that the participant's exposure generates a risk not otherwise discussed in the above criteria and was not contemplated in the usual and customary definition of neurological professional services but meets underwriting approval for coverage. Use of this category requires management approval in all cases. **25% Debit**

<b>Rule 7.</b>	<b>Group Accounts</b>
----------------	-----------------------

**Eligibility**

The medical groups that will be considered for Coverage B of the policy will be professional corporations, partnerships, or associations owned and operated by neurologists.

**Rates**

Each neurologist insured will be rated in accordance with the individual program rules and rates.

Vicarious liability coverage for the medical group for employed or contracted healthcare providers not insured under the policy will be priced at 10% of the otherwise applicable premium rate (including discounts).

Medical group premium will be priced based on the following:

<u>Number of</u> <u>Insured employees/contractors.</u>	<u>Percentage of</u> <u>Insured Neurologist Base Rate</u>
2-5	10%
6-10	15%
11-20	20%
over 20	25%

The sum of the individuals, medical group and vicarious liability premium will determine the total premium of the medical group.

Insureds can share the limit of liability of the medical group.

The base rate for each insured sharing the limit with the group entity will be reduced by 10% when the total number of insured neurologists in the group exceeds 5 on an annual basis.

The base rate for each insured sharing the limit with the group entity will be reduced by 5% when the total number of insured neurologists in the group is 5 or less on an annual basis.

A schedule rating credit/debit can then be applied to the total premium of the medical group in accordance with the Schedule Rating Group Rules, (see attached).

**Limits of Liability**

Refer to policy Limits of Liability Section, Coverage A and Coverage B for application of limits for individual insureds, medical corporations, partnerships, and associations. Refer to the rate schedule for the applicable limits for each state.

**Claims-Made**

The retroactive date can be advanced only at the request or with the written acknowledgment of the insured.

**Group Vicarious Liability Surcharge Endorsement**

If a scheduled insured under the group policy terminates coverage and does not elect to purchase the extended reporting endorsement, the group premium will be surcharged 10% of the quoted ERP premium. The surcharge is applicable as a result of the vicarious liability exposure to the group for the professional services rendered by the insured while working on behalf of the group. The surcharge will be waived if the cancelled insured provides proof of prior acts coverage from the new carrier for the period insured under the group policy.

**Outside Medical Group Practice Activity**

Coverage will be considered for an insured that has a medical practice outside the scope of his/her affiliation with the medical group. The outside practice is subject to underwriting and if accepted will be rated in accordance with the medical specialty rate and total practice hours applicable to all practice activities for which coverage has been provided.

<b>Rule 8.</b>	<b>Group Accounts – Schedule Rating</b>
----------------	---

*Adjustment to base rate on group accounts not to exceed a credit of 5% or a debit of 10%.*

The following modifications may be applied to recognize special characteristics that are not fully recognized in the basic rate(s) or premium. The maximum credit shall not exceed -5% and the maximum debit shall not exceed +10%. The schedule rating program is mandatory and to be administered consistently for each insured or prospective insured.

**Management**

Management has demonstrated adequate control and monitoring of the risks and exposures of the organization. The financial condition of the Medical Group is favorable. An example of a Medical Group which would receive a credit would employ a dedicated risk manager and have favorable financial ratios. (+/-5%)

**Employees**

The applicant has established a continuing professional education program for its employees and encourages certification in their respective specialties. There must be a statement in the employee handbook advocating continuing education. The Medical Group agrees to pay all or some of the tuition fees and/or related educational expenses. Further, the composition of the Medical Group will be 50% or greater of the employee population having board certification or similar advanced degrees for a maximum credit to be granted. If the percentage is lower, but still substantial, and the other criteria described above are met, a lesser credit may be granted. If none of the above, a debit will be made. (+/-5%)

**Risk Management**

The applicant has an established and working risk management program to minimize the frequency and severity of claims. A Medical Group which has an incident reporting system, occurrence screening, and other mechanisms to address potential and actual claims would receive a maximum credit. If none of these mechanisms are in place, a debit will be made. (+/-5%)

**Medical Records/Informed Consent**

The applicant has a system in effect for concurrent and retrospective review of medical records and informed consent documents. If the Medical Group has a medical records system only or an informed consent system only, no debit or credit is available. If both systems are in effect, a credit is available. If neither system is in effect, a debit will be made. (+/-5%)

**Performance of experimental procedures**

If the medical group practice includes procedures that are considered experimental, but that are performed within the prescribed guidelines, controlled studies, or : "protocol" established by the manufacturer or similar entity, there will be no debit or credit, however if the experimental procedures are not subject to the protocol, a debit of up to 10% will be applied. Since the underlying program's rates reflect the assumption that insureds will not be performing experimental procedures, no credit will be given under any circumstances and under this category i.e. there will be no credit if experimental procedures are not utilized. (+10%)

<b>Rule 9.</b>	<b>Locum Tenens</b>
----------------	---------------------

A Locum Tenens ("hold the place of") works in place of a Named Insured or Additional Named Insured, never at the same time. The Locum Tenens doctor must be underwritten in the same specialty classification as the Named Insured or Additional Named Insured. The program will allow Locum Tenens coverage for a maximum total of 45 days each policy year.
